One of the earliest known photographs of Gloucester was taken in 1854 by Boston photographer John Adams Whipple. The image shows a view of the town from across the harbor, with the fishing fleet in the foreground. In the background, the town's iconic granite quarries can be seen.

Another early photograph of Gloucester was taken in 1867 by photographer Carleton E. Watkins. This image shows a view of the town from Eastern Point, with the lighthouse in the foreground. The image captures the town's picturesque setting, with its rocky coastline and crashing waves.

As the 19th century progressed, photography became more common, and more and more photographs of Gloucester were taken. These images document the town's growth and development, as well as the lives of its residents.

One of the most famous photographs of Gloucester was taken in 1903 by photographer Lewis Hine. The image shows a group of young Italian immigrants working in a fish processing plant. The image captures the harsh working conditions that many immigrants faced in the early 20th century.

Another well-known photograph of Gloucester was taken in 1936 by photographer Walker Evans. The image shows a group of fishermen standing on the deck of a fishing boat. The image captures the camaraderie and sense of community that existed among fishermen.

Today, Gloucester is a popular tourist destination, and many visitors come to the town to see its historic sites and beautiful scenery. The town's many museums and galleries offer a glimpse into the town's past, and its restaurants and shops offer a taste of its present.

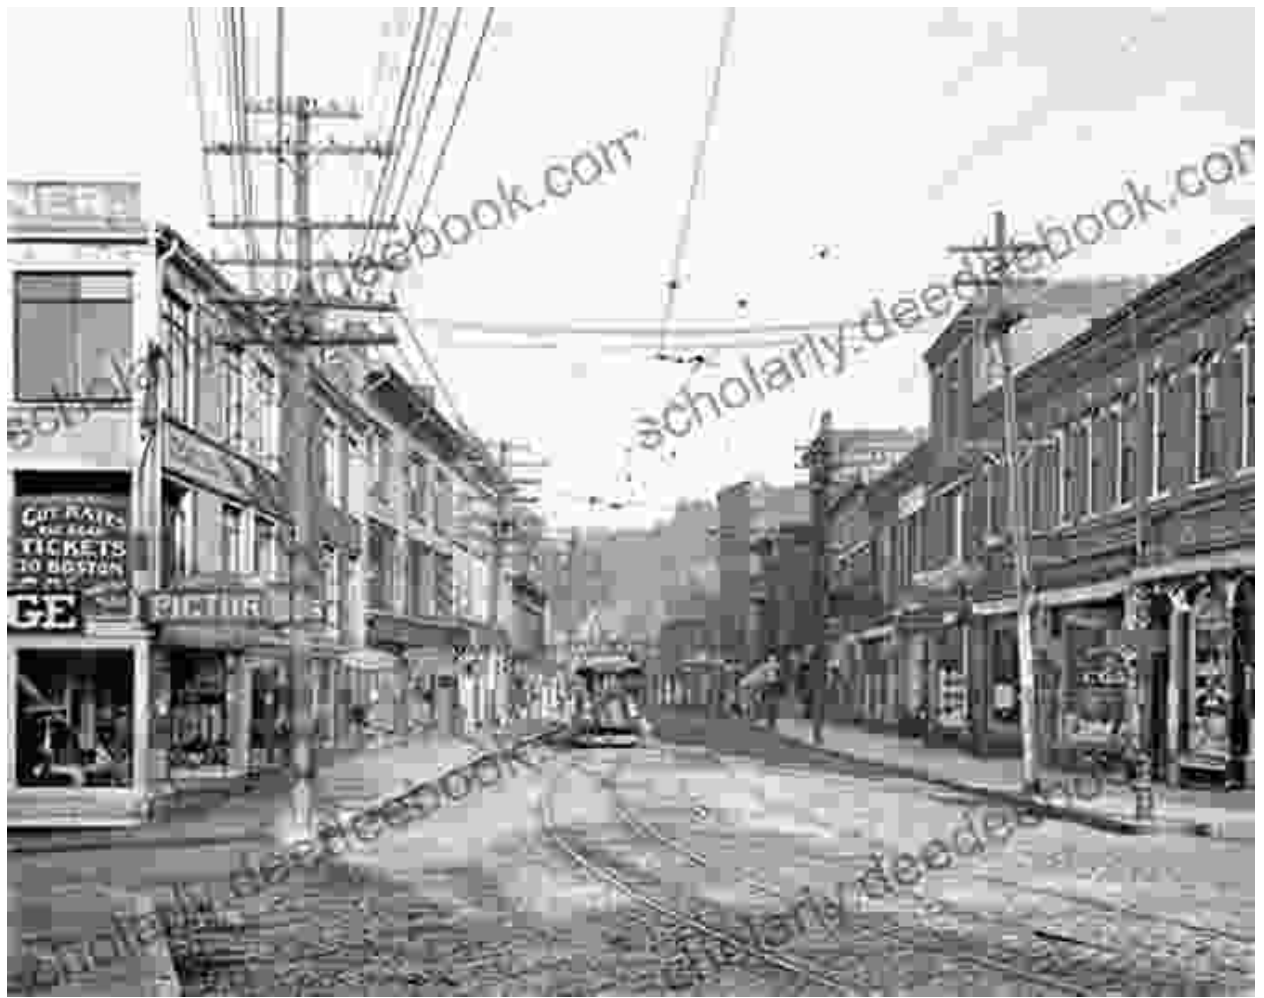

The old photographs of Gloucester provide a valuable record of the town's history and culture. They offer a glimpse into the lives of its residents and the challenges they faced. They also capture the town's beauty and its unique character.

Here are some additional old photographs of Gloucester:
