Materials You'll Need

To get started with needle felting, you'll need the following materials:

- **Wool fibers:** Wool fibers are the main material used in needle felting. They come in a variety of colors and textures, so you can create a wide range of different effects.

- **Needle felting needle:** A needle felting needle is a specialized needle with tiny barbs on the end. These barbs help to hook and entangle the wool fibers, creating a felted fabric.
- **Foam pad:** A foam pad provides a firm surface to work on and helps to protect your fingers from the needle.
- **Scissors:** Scissors are used to cut the wool fibers to the desired length.
- **Optional: Felting mat:** A felting mat can help to keep your work area clean and organized.

Basic Techniques

There are a few basic techniques that you'll need to master to get started with needle felting. These techniques include:

- **Stabbing:** Stabbing is the most basic technique in needle felting. To stab, simply insert the needle into the wool fibers and pull it back out. This will help to hook and entangle the fibers, creating a felted fabric.
- **Poking:** Poking is a similar technique to stabbing, but it is done with a more gentle motion. Poking is used to create details and textures in your felted pieces.
- **Rolling:** Rolling is used to shape and smooth your felted pieces. To roll, simply place the felted piece between your palms and roll it back and forth.
